

We are what we really want?

Escrito por Josue99 - 26/07/2019 18:10

For a long time, I have been studying different cases of cancer, I have encountered a lot of really alarming results. There is one in particular that caught my attention, and that was Malignant Mesothelioma, being one of the deadliest of all. It has a characteristic that is to stick to the thoracic, pulmonary and cardiac cavity, having one of the strongest cells of all.
