

School districts/villages with teacher housing and pets

Escrito por kevinmanuel - 20/04/2018 13:00

Hi,

I have along list of districts/schools that are advertising positions in my field. In doing my research I'm not finding it easy to narrow down based upon which ones allow pets in teacher housing. If any of you have experience with any of these areas, I would appreciate knowing if pets are allowed, how many, how much pet rent is and your personal experience (if any).

I would also love any insight on teacher housing - costs, quality, proximity to school, etc.

Please help.

I didn't find the right solution from the Internet.
